

TRADICA application demo

Y.Zimmermann, M.Schröter

Demo Features:

- Device Portfolio
 - Resistor Input
 - Capacitor Input
 - Diode Input
- Model Parameter Generation
- Job Browser
- Device Data Storage
 - Tree Structure
 - Import of Characteristics
- Parameter Extraction
- Thermal Device Characterization
 - Static Temperature Profiles
 - Transient Characteristics
 - Thermal Info Output

Under Construction / Future Features:

- Statistical Modeling
- Predictive Modeling
- Complete Distributed Model Generation
- Device-/Circuit Simulator Access
- Graphical Structure Definition (DEVICE-"Layouter")
- Enhanced Plotting Capabilities
